

Welcome to the brand new Salisbury School Archives home page. In coming months we will be offering a wide range of material relating the history of the School. We will be adding resources as rapidly as time and manpower allow. Future projects include digitizing a list of all students attending Salisbury from the 1901-1945 period, compiling a list of faculty during the same period, cataloguing the activities of the Drama Society in the early decades of the School, and continuing to expand our holdings of early photographs. Welcome Aboard!
