The General Fee funds costs associated with the Health Center, laboratories, studios, activities, and publications. The Technology Fee provides each student with internet and network access, an e-mail account and use of all on-campus technology services. Fees for tutoring in the Learning Center (\$2,200 per trimester for two meetings per week) are additional.

These payments are in addition to the \$1,000 Escrow Deposit that is paid on admission and held by the school and credited upon graduation or separation.

Incidental Charges: All incidental charges including textbooks, athletic equipment, medical charges (prescriptions etc.), taxi fares, allowances, testing fees (SAT etc.) will be processed through the prepaid debit card system. Students will not be allowed to make purchases or draw on their account unless a credit balance is maintained.

*** The Tuition Refund Plan will be required for any student whose full-year tuition and fee (including any outstanding balance from previous charges) have not been paid by July 1, 2018. This includes any Payment Plan participants. The charge for this plan is 2.5% of the net tuition and fees.**
